

Adults with Fragile X Syndrome

Southwest Autism Research
and Resource Center

300 N. 18th Street
Phoenix, AZ 85006
www.autismcenter.org

SARRC is now recruiting adults with Fragile X Syndrome for a voluntary research study to test how well an investigational medication works to treat behavioral symptoms associated with Fragile X Syndrome

Study Information

20-week research study comparing the safety and effectiveness of an investigational medication and placebo (sugar pill)

All evaluations are conducted and either the investigational medication or placebo is provided at no cost to the participants

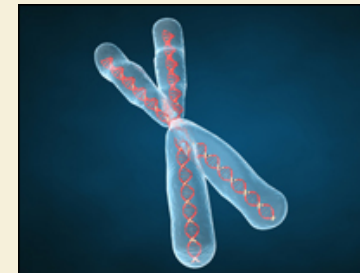

Families of patients who participate will be reimbursed for their travel expenses

Under the direction of Dr. Raun Melmed

Participants

Ages 18-45

Have confirmed diagnosis of Fragile X Syndrome

To participate in this study or for additional information, contact:

Sajitha Puthalath, M Pharm

Phone: (602) 218-8195

Email: sputhalath@autismcenter.org

Sharman Ober-Reynolds, MSN, FNP, CCRP

Phone: (602) 218-8225
