

Over \$1 Million in Fragile X Research Grants & Fellowships Offered for 2022

FRAXA's mission is to find specific treatments and ultimately a cure for Fragile X syndrome. We aim to bring practical treatment into current medical practice as quickly as possible; we prioritize projects that have a clear practical application and the results of which will be shared in a timely fashion.

- **Fragile X Clinical Trial applications are accepted and reviewed on a revolving basis. Our #1 priority is to fund clinical trials; there is no application deadline or budget limit.**
- **FRAXA Fellowship applications are due on February 1, 2022. Fellowships provide \$100,000 over 2 years for direct costs.**

Learn More & Apply

Visit fraxa.org/apply or contact Chief Scientific Officer, Dr. Michael Tranfaglia at mtranfaglia@fraxa.org to learn more about the application details and explore past grant recipients.
